The OBIE... is it real?

An award presented for the best
out of home advertising of the year.

I have talked to those who say they
have seen it and some who claim
to own one, but in all my travels...

I still wonder.

If they are out there, they are
harder to find and harder
still to bring home.

Can you find an OBIE
to place on your shelf or
is it out of reach?
