

We build technology that makes it easier to buy and sell outdoor advertising

Our software tools automate administrative tasks so that buyers and sellers can focus more on strategy and client service, and less on juggling unwieldy files and attachments.

ADstruc also helps bring greater efficiency to outdoor advertising by making it easy to apply audience and location data to OOH campaigns.

Our tools are rooted in deep industry insights and are fully customizable to suit your workflow needs. Contact us to see why ADstruc is the easiest, most efficient way to buy and sell outdoor advertising.
